Anders Midtsjø
Kristiane Holter

SLOAP
Space Left Over After Planning
Fra restarealer til
verdifulle temporære steder

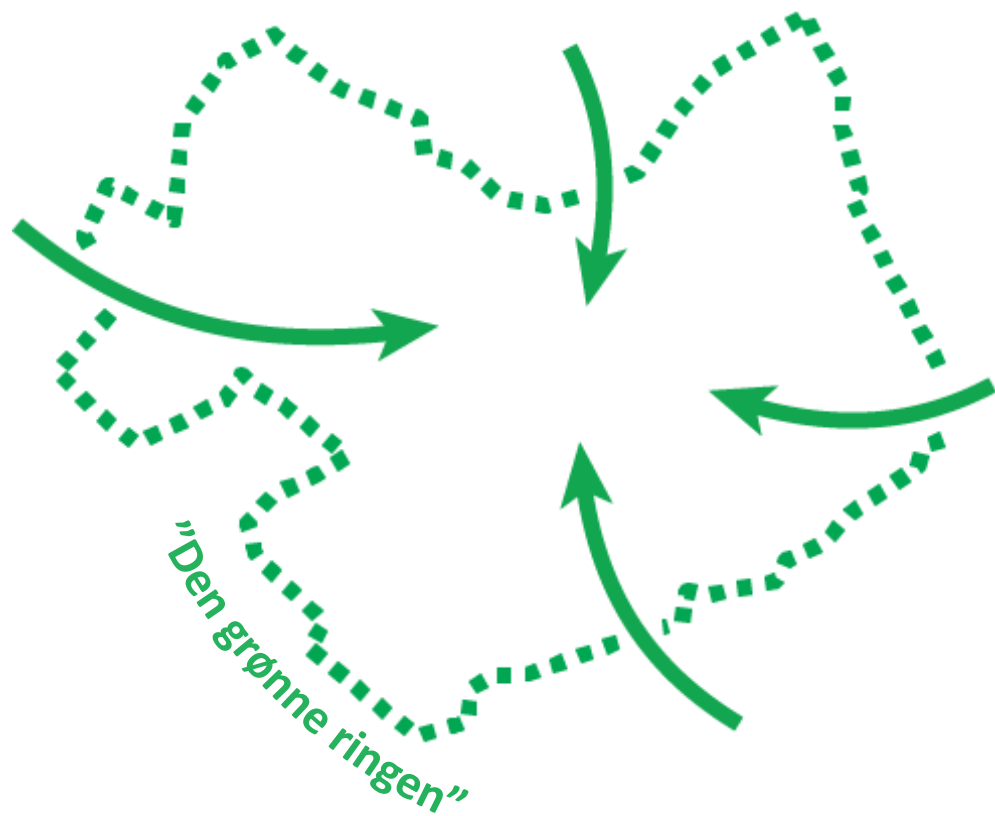

SLOAP 3 Hva er en SLOAP?

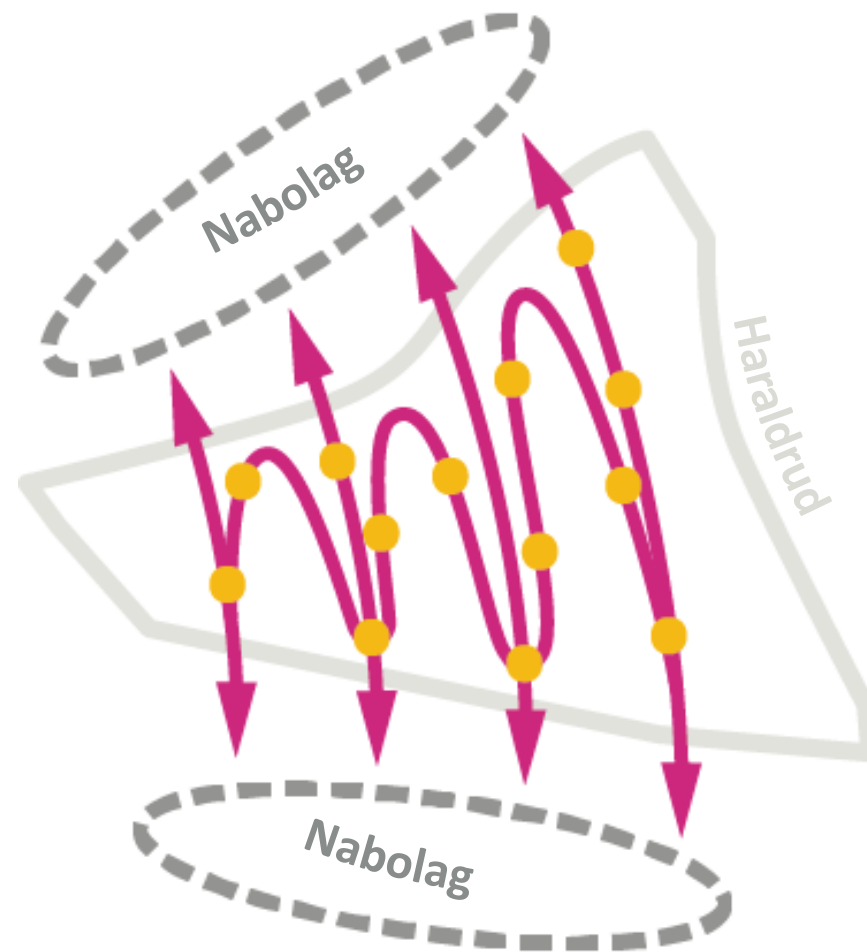

'Space Left Over
After Planning'

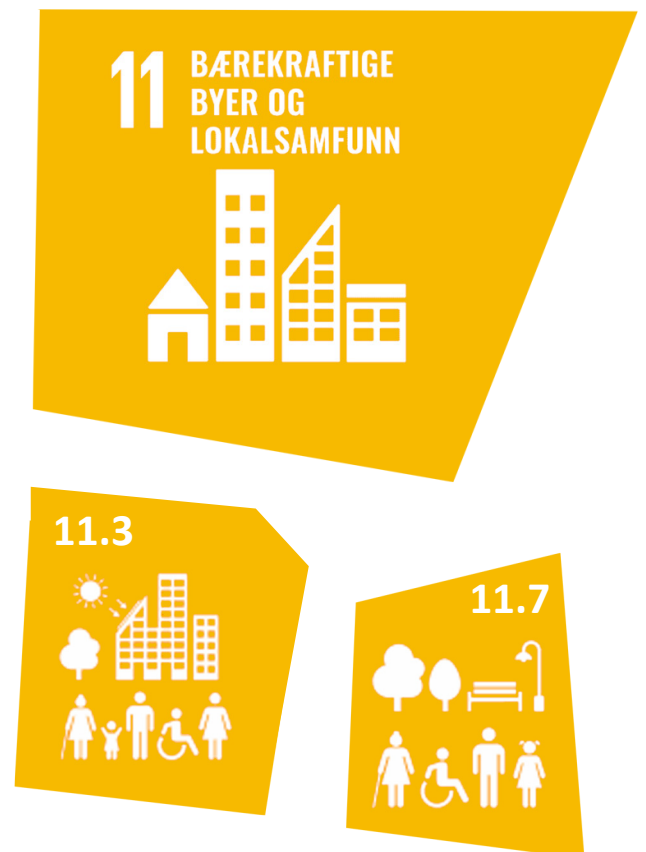

Jobbe innover

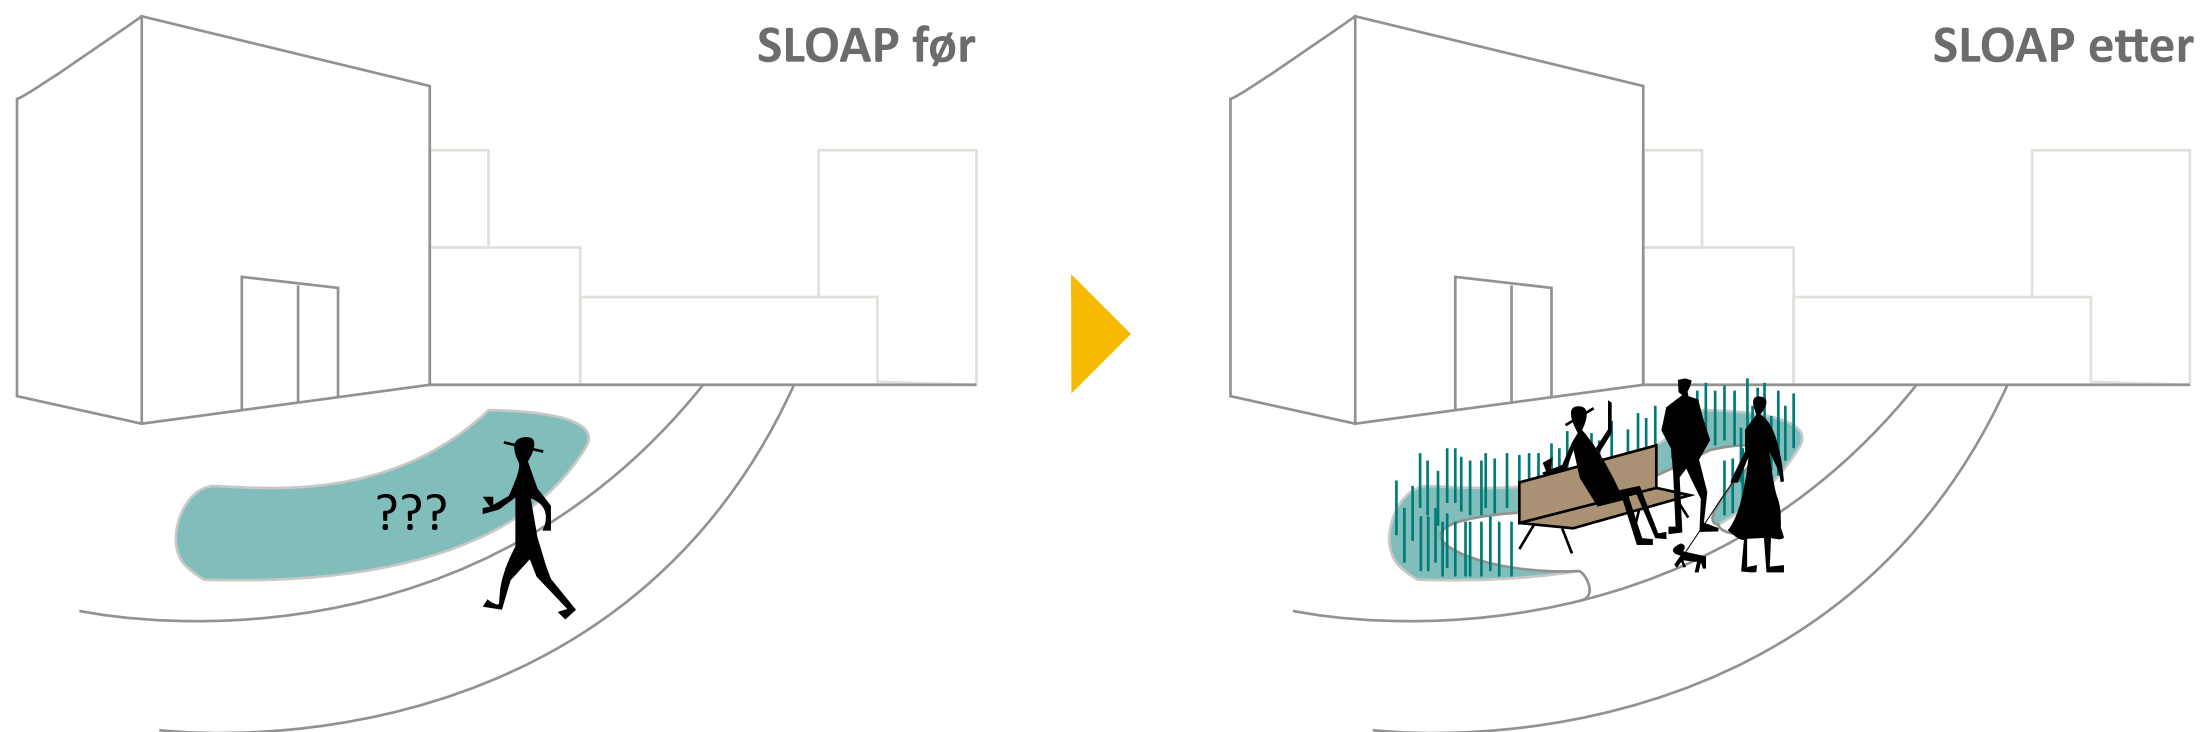

Koble sammen nabolag

Bærekraftsmål 11

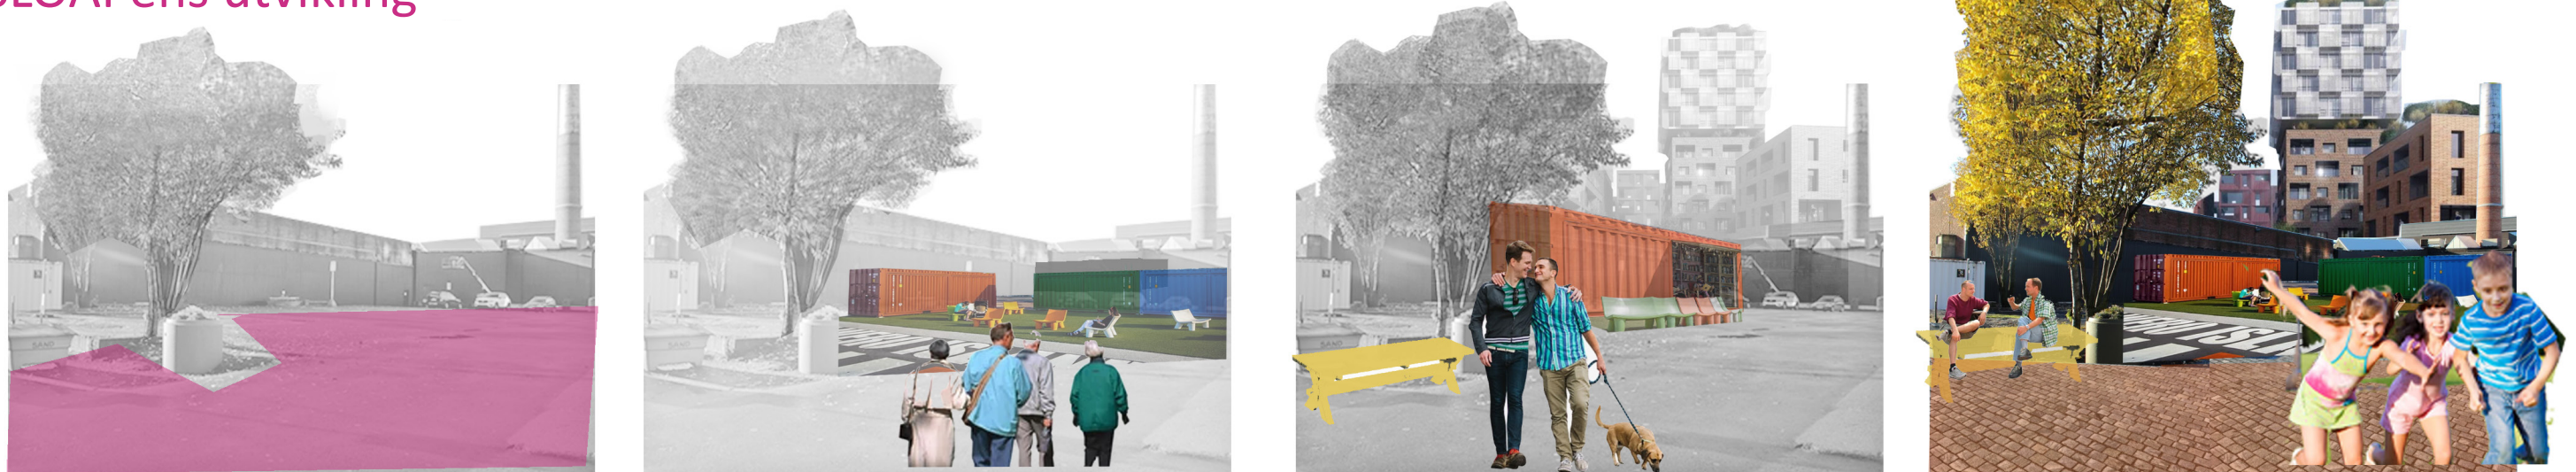

Fra restarealer til verdifulle temporære steder

Haraldrud's utvikling

SLOAPens utvikling

1. Makroskala

Definer og kategoriser
SLOAP

Kartlegg prosjektområdets
SLOAP overordnet

Finn problemområder hvor
hverdagslige kvaliteter bør økes

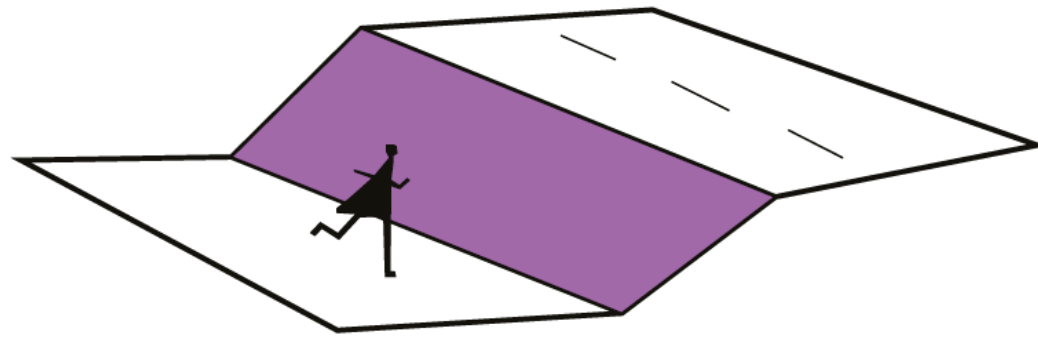

2. Mesoskala

Skap et sammenkoblet SLOAP-
nettverk i problemområdet

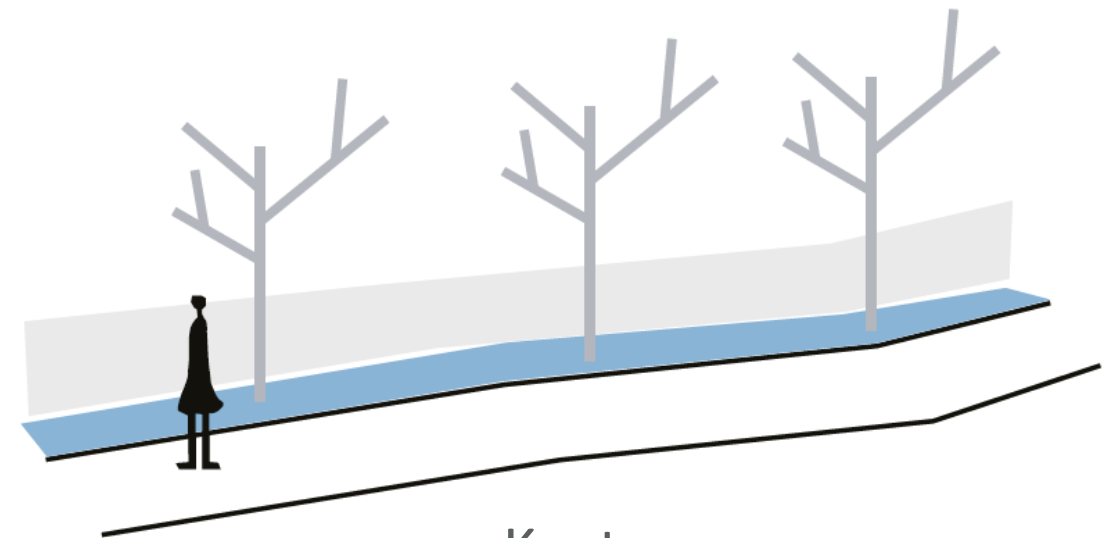

Programmer SLOAP-nettverket
- hva behøver området?

3. Mikroskala

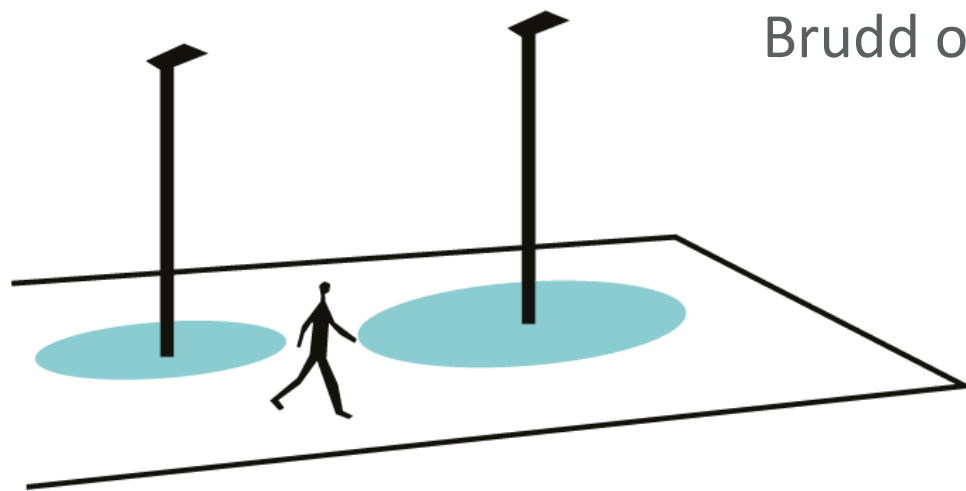

Prosjekter nettverket i dybde - utnytt stedskontekst!

Brudd og terrengforskjell

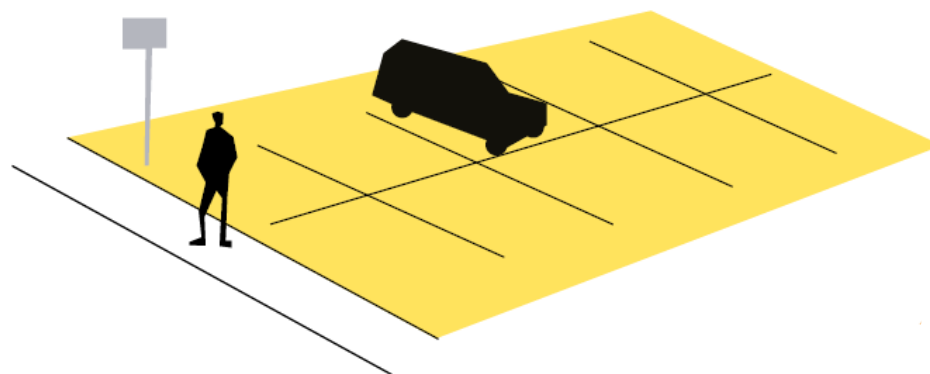

Kant

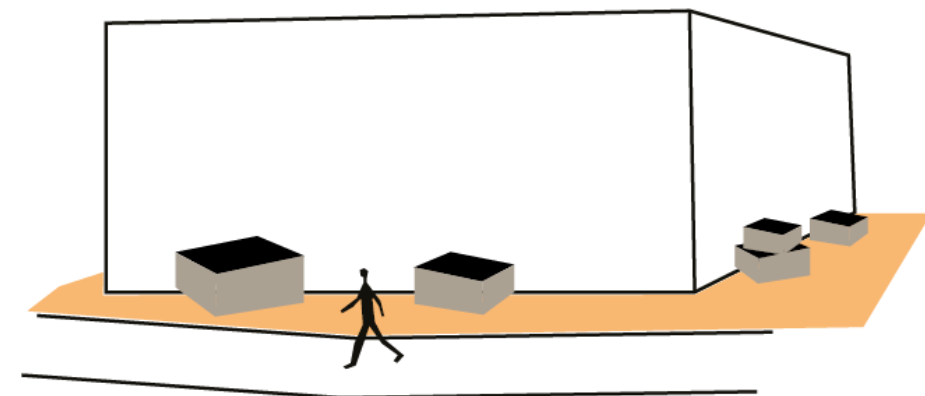

Flekk

VÅRE FEM KATEGORIER

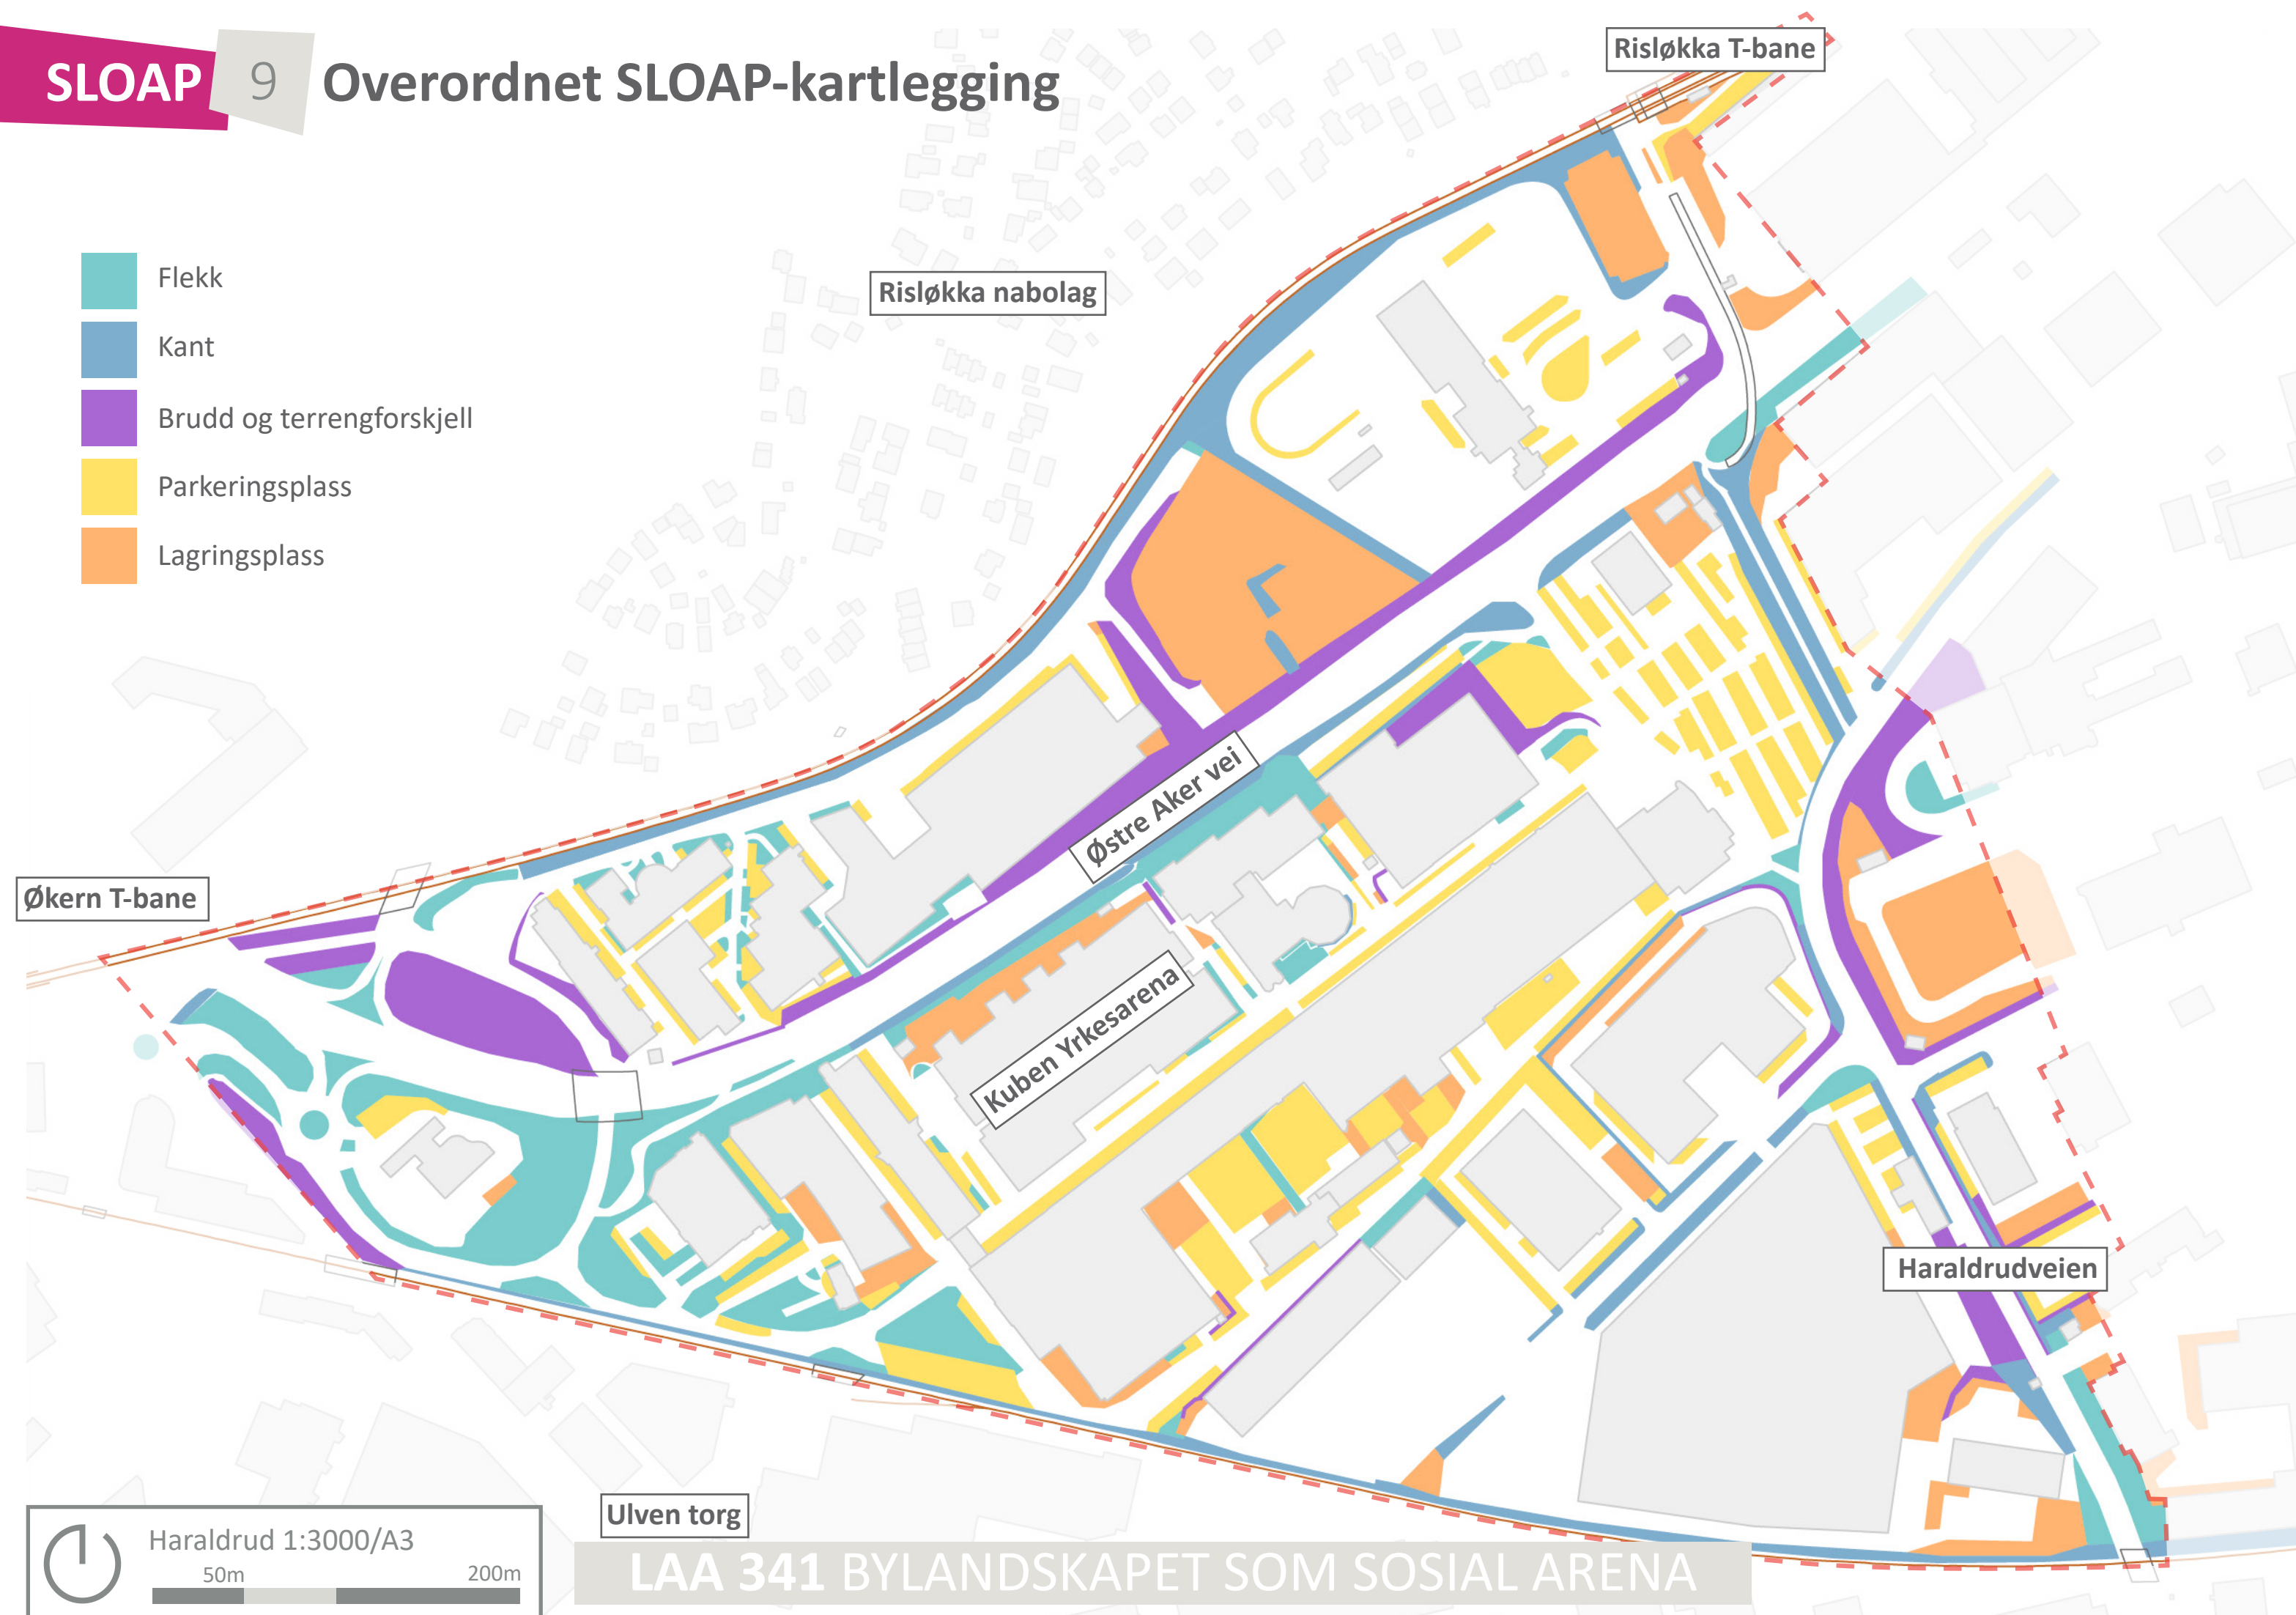

Parkeringsplass

Lagringsplass

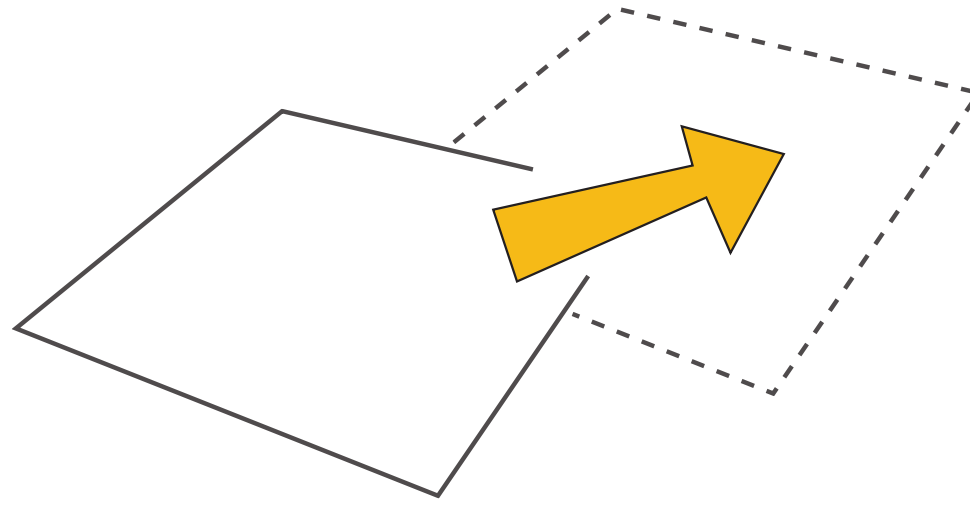

- Flekk
- Kant
- Brudd og terrengforskjell
- Parkeringsplass
- Lagringsplass

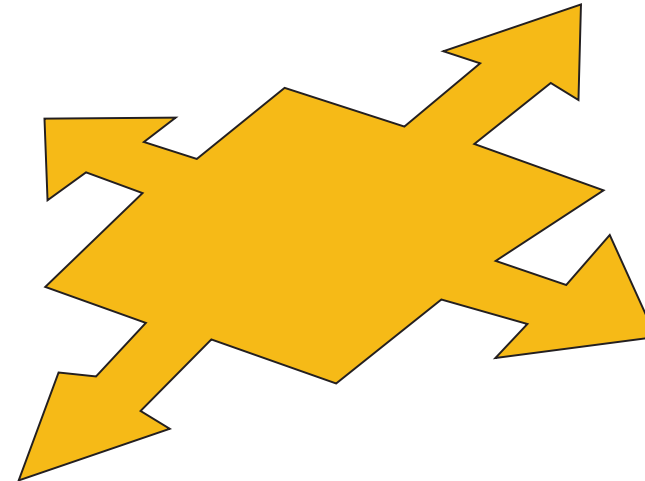

SLOAP 10 Våre problemområder - tre sekvenser

- Utvalgte SLOAP
- Bevegelseslinjer
- Problematiske bevegelseslinjer
- Problemområder

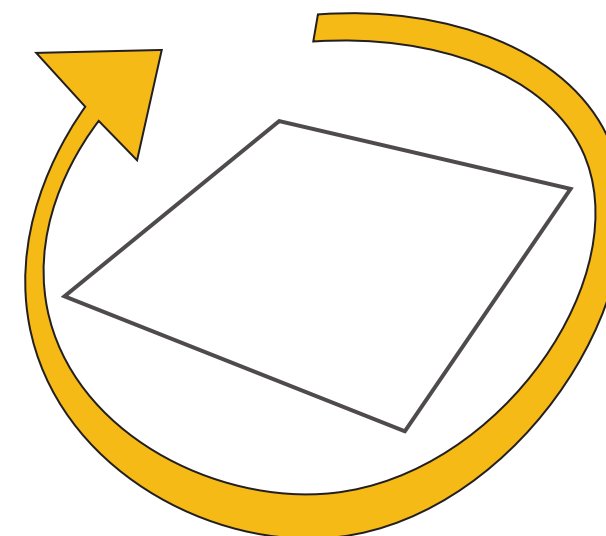

Flytting
