COMPETITION 2011

...when Urban Design meets Lighting Design!

NORDIC URBAN LIGHT DESIGN

Competition 2011

This is an open competition ...Check out the prizes! ...and dead-lines!

The design task is to conceptualize an urban lighting design proposal for new Stavanger East lighting.
Find all info at www.nordicurbanlightdesign.org

Urban lighting design is an important tool for strengthening the urban context and better understanding the concept of light and what it can provide the city space; the streets; the plazas; the parks; the buildings and the relationship between interior and exterior with as a necessary edge of visual attractiveness.

NUDA, in partnership with Philips and Urban Sjøfront, invites your team to create a conceptual design strategy for Stavanger East which addresses our night time perception of our cities, through your participation at: Urban Light Design Competition 2011.

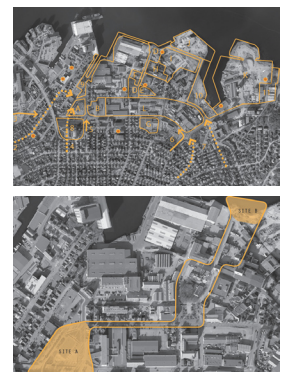

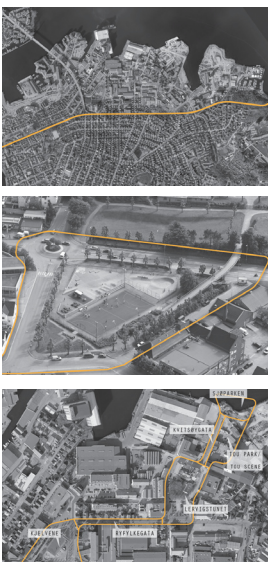

We invite your creativity to participate!

The selected city district of Stavanger is a progressive and fast developing area suited for the intention of the competition. NUDA, in partnership with Philips and Urban Sjøfront, expect Urban Light Design proposals from participants throughout the Nordic countries to attend.

23th November: ...and the winner may be your team!

Team registrations deadline **31st of August** and **entry deadline 15th October.**
